

General Counsel & Compliance Officer

Prophesee is the inventor of the world's most advanced neuromorphic vision systems.

The company developed a breakthrough Event-Based Vision approach to computer vision. This new vision category allows for significant reductions of power, latency and data processing requirements to reveal what was invisible to traditional frame-based sensors until now. Prophesee's patented Metavision® sensors and algorithms mimic how the human eye and brain work to dramatically improve efficiency in areas such as industrial automation, mobile, IoT, and AR/VR.

Prophesee is based in Paris, with local offices in Grenoble, Shanghai, Tokyo and Silicon Valley. The company is driven by a team of more than 100 visionary engineers, holds more than 50 international patents and is backed by leading international equity and corporate investors including 360 Capital Partners, European Investment Bank, iBionext, Intel Capital, Prosperity7 Ventures, Robert Bosch Venture Capital, Sinovation, Supernova Invest, Will Semiconductor, Xiaomi.

Prophesee has recently closed a €50m C round of funding to accelerate the commercial growth of the company.

The company is seeking an experienced **General Counsel & Compliance Officer** to join its talented team and unlock a new paradigm shift in AI and computer vision.

The successful candidate will:

- Provide legal advice and support to the company on a range of matters, including contracts, intellectual property, regulatory compliance and litigation;
- Review, draft and negotiate of a wide variety of commercial agreements, including joint developments, collaborations, licensing in and out, consortium, distribution, supplies and vendor agreements;
- Prepare T&C's for business transactions, such as sales, software licensing and services.
- Put intercompany agreements in place to support company's subsidiaries and business growth;
- Oversee all corporate legal aspects relating, but not limited to benefits, insurance, and fund raisings;
- Lead the IP and Security Committees and advise on intellectual property matters including patents, trademarks, and trade secrets.
- Manage the company's intellectual property portfolio, including patents, trademarks, and copyrights.
- Lead privacy & data protection compliance, develop and implement compliance programs, as well as apply those concepts as the Company's business expands into North America and Asia;
- Provide legal advice and guidance to senior management, other departments and stakeholders on legal and compliance issues;

- Work closely with the company's engineering and product development teams to ensure that the company's products comply with applicable laws and regulations, including export control.
- Ensure that legal risks are identified and managed in an effective and timely manner;
- Manage relationships with external legal counsel and ensure that their services are being provided efficiently and effectively;
- Train employees on legal, privacy, and intellectual property matters.

This list is indicative and not limitative.

Qualifications:

- Juris Doctor (J.D.) or LLM degree from an accredited law school.
- Minimum of 15 years of experience in legal and compliance roles, preferably in the high-tech semiconductor industry.
- In-depth knowledge of relevant laws and regulations, including those related to intellectual property, data privacy, security and export control.
- Strong negotiation and communication skills, with the ability to communicate complex legal concepts to non-legal stakeholders.
- Ability to work independently and manage multiple priorities in a fast-paced environment.
- Strong analytical and problem-solving skills.
- Excellent attention to detail and accuracy.
- Experience managing external legal counsel and other third-party service providers.
