

« Key Challenges in Industrial Internet »

Robert Plana

CTO & Ecosystem Director, GE Digital Foundry

December 15th 2016

Imagination at work

Contact details:

Robert Plana – CTO, Digital Foundry

Robert.plana@ge.com

Véronique Bruhat – Commercial Hub
Manager

Veronique.bruhat@ge.com

Industry is facing major issues

Materials ... rising costs & supply constraints

Production ... overcapacity in most industries

Labor ... increasing costs in the developing world

+

Product development ... shorter cycle times, more price points

New Industrial Paradigm is needed

Science and Technology enablers

Industrial Internet

Secure Connected Devices

-100x

Sensor/chips cost

Emergence of **CaaS**

IPv6

Industrial Data Management

-50x

Storage cost

10 year maturity:
Hadoop 2.0+

Industrial Data Science

10,000x

In-memory speed

Hot Job '15:
Data Scientist

Mobile and Cloud

7+ billion
mobile phones

Rise of
API's & Apps

Sensing, storing, analyzing and transmitting data is becoming cheap & easy

Digital Industrial Key Benefits

**Maximize performance
and asset availability**

**Digital Heritage
Management**

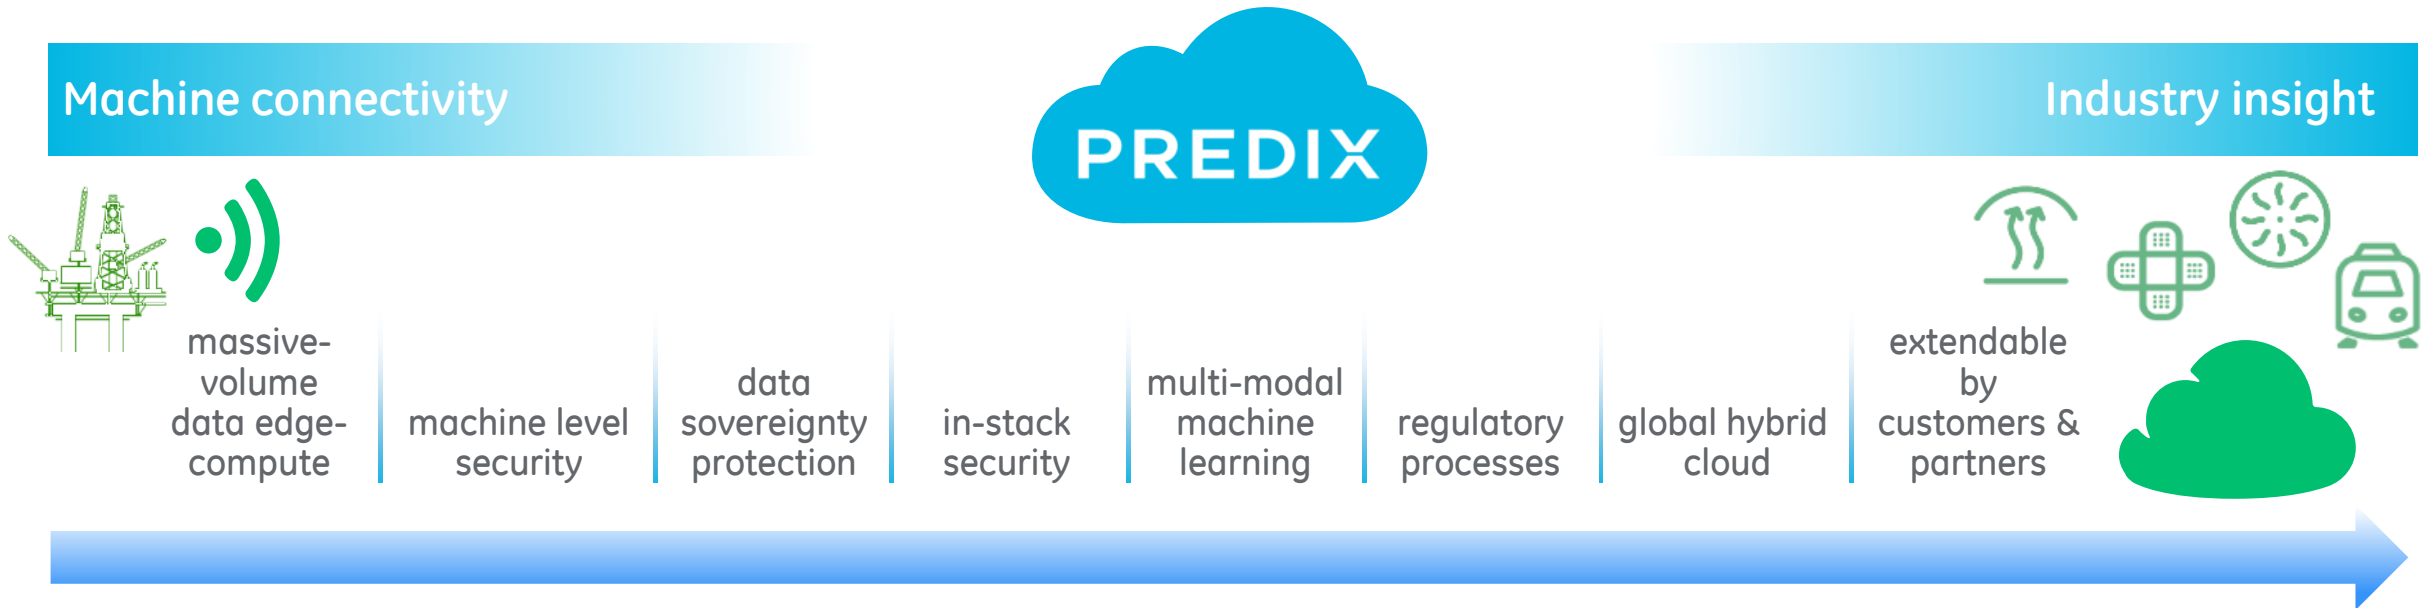

**Increase system
efficiency across
operations**

**Optimize lifecycle of
design, manufacturing,
service & repair cycles**

Industrial Requires a Whole New OS

Predix, the OS for industry

Built for
industry

+

Over 100 years of
domain expertise

+

Applications & analytics
for IoT use cases

=

GE's competitive
advantage

An interoperable and evolutive environment to Bridge the “OT / IT Gap”

Industrial Workload

Data and Analytics

Innovation

End-to-End Trust

GE Strategy: Becoming a Digital Industrial Company

One goal in sight – Drive Productivity and Increase Relevance in the World

GE for GE

Productivity

- Digital thread
- Predix + data analytics
- Digital twin/1st principle model
- Services Transformation

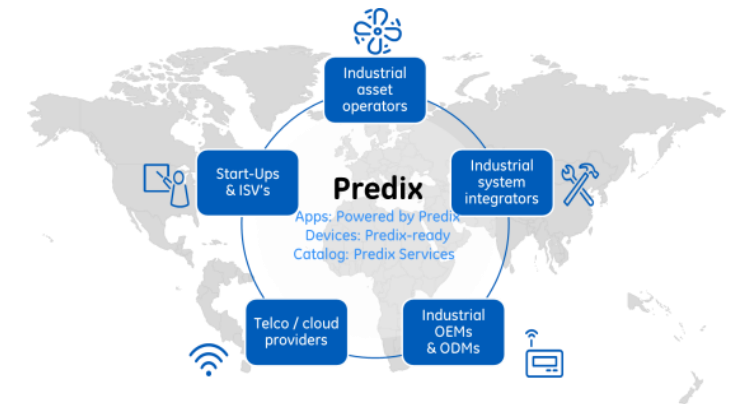

GE for Customers

Apps

- Outcomes for customers
- Optimize GE equipment
- Industrial apps portfolio, micro services
- Digital extensions

GE for World

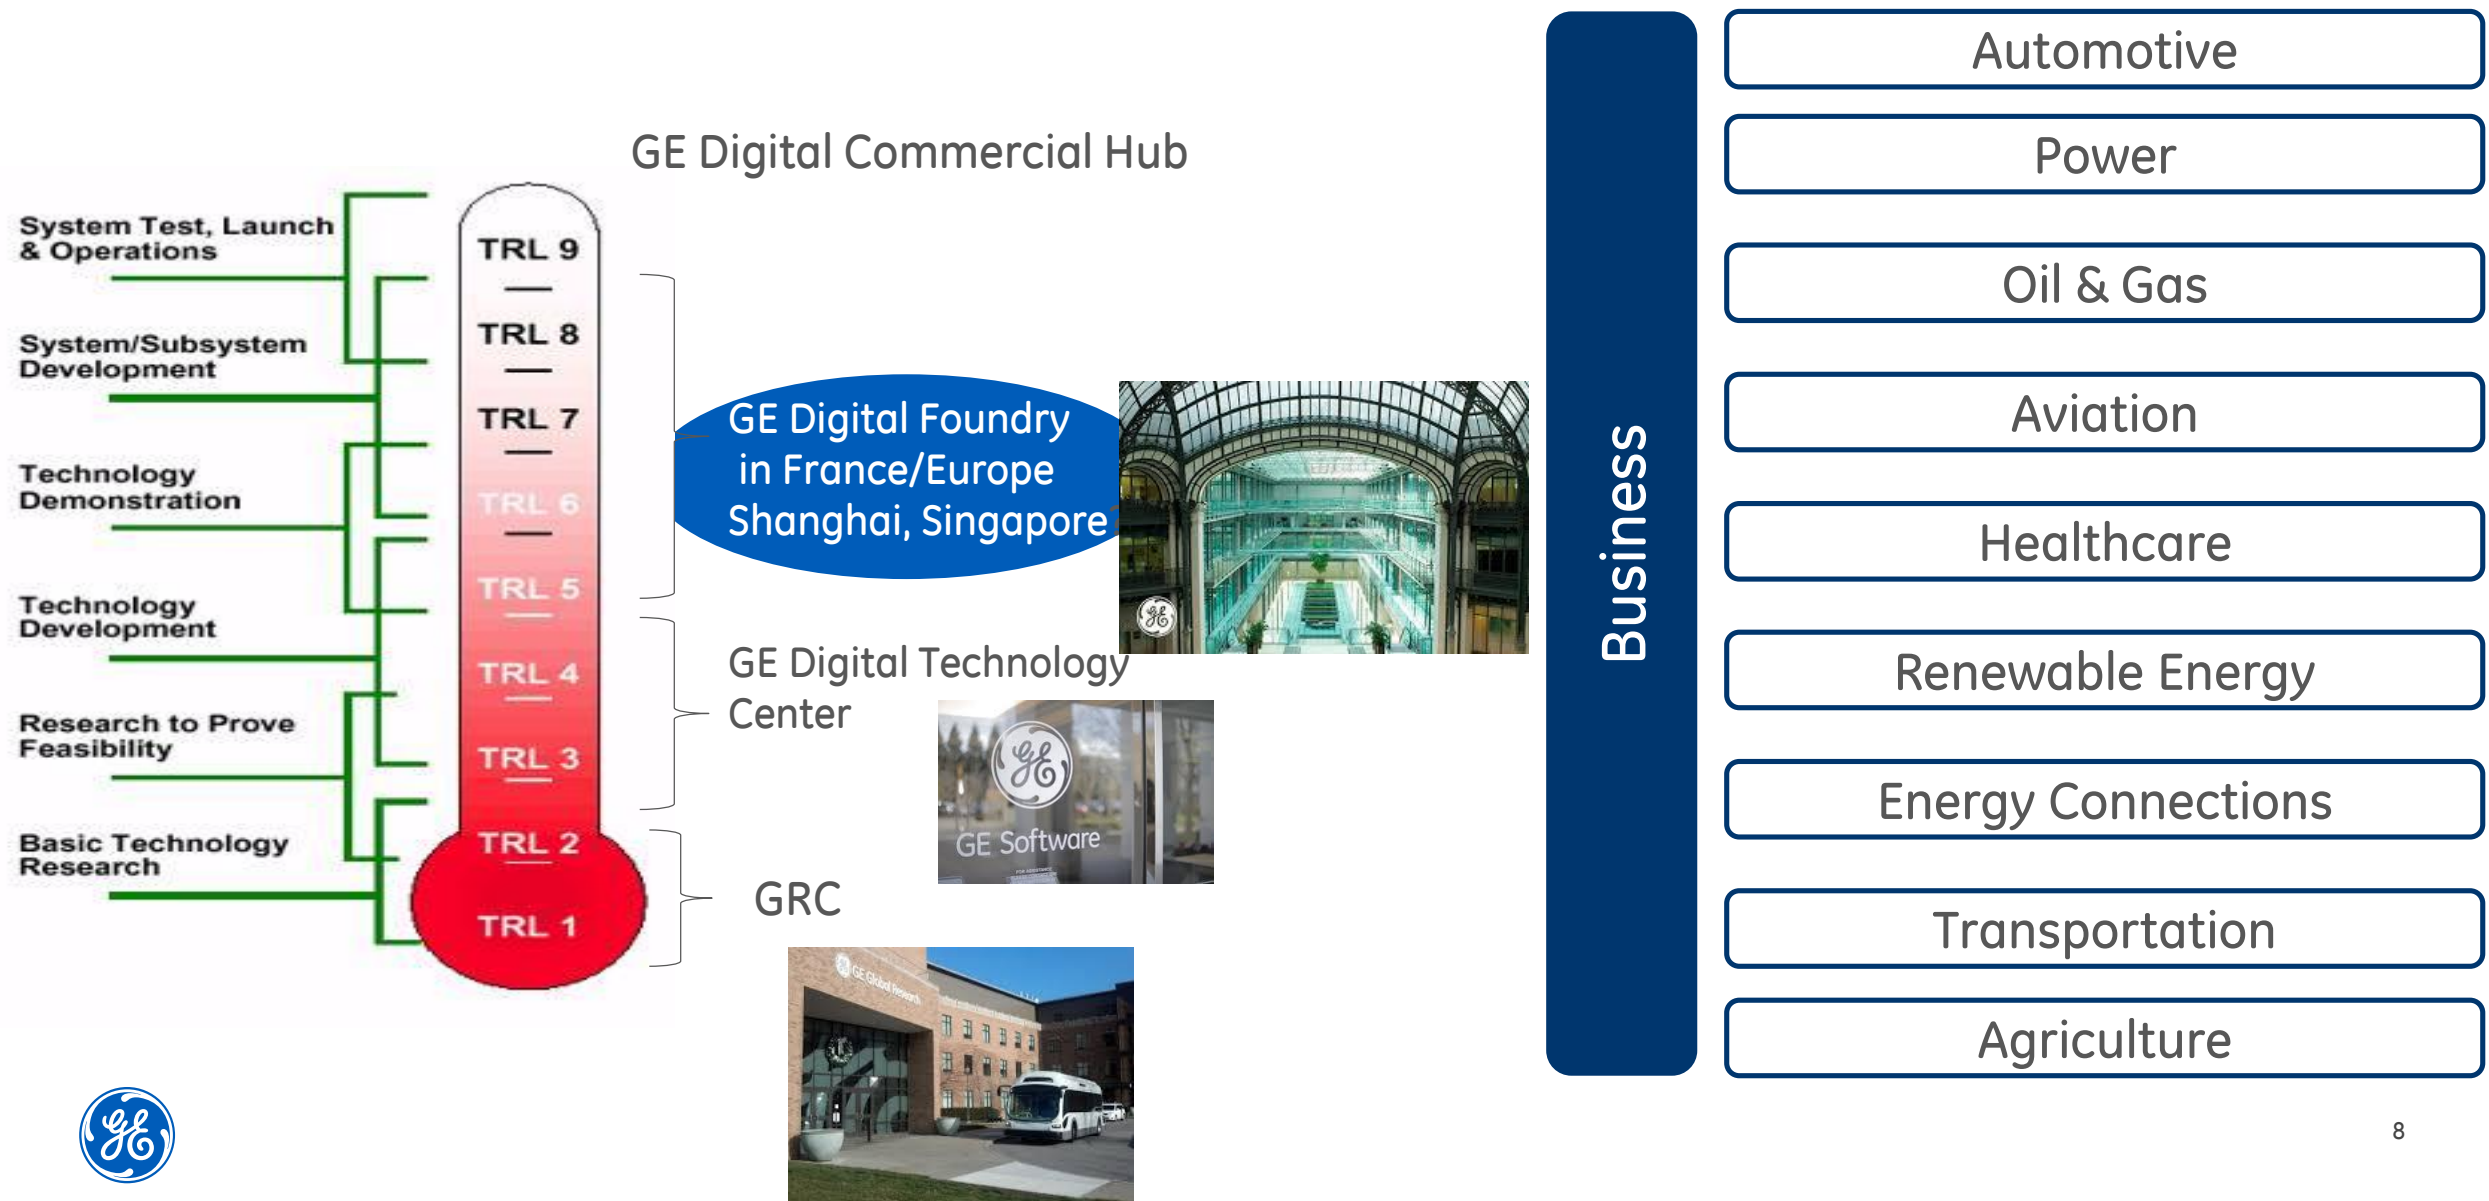

Operating System

- Enable industrial companies
- Predix industrial operating system
- Industrial-focused security

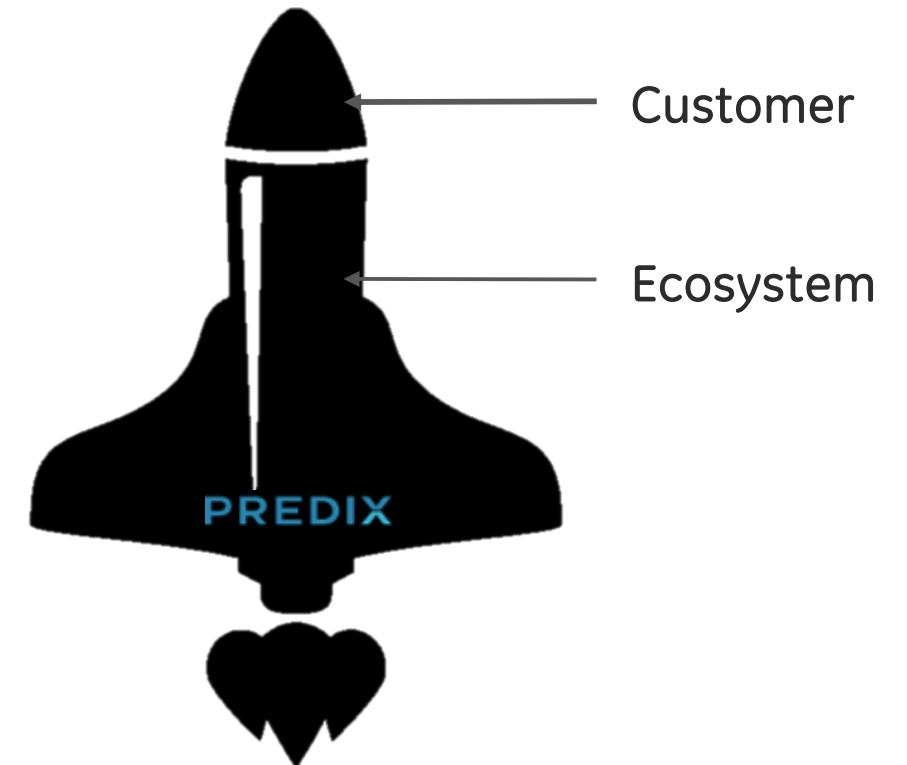

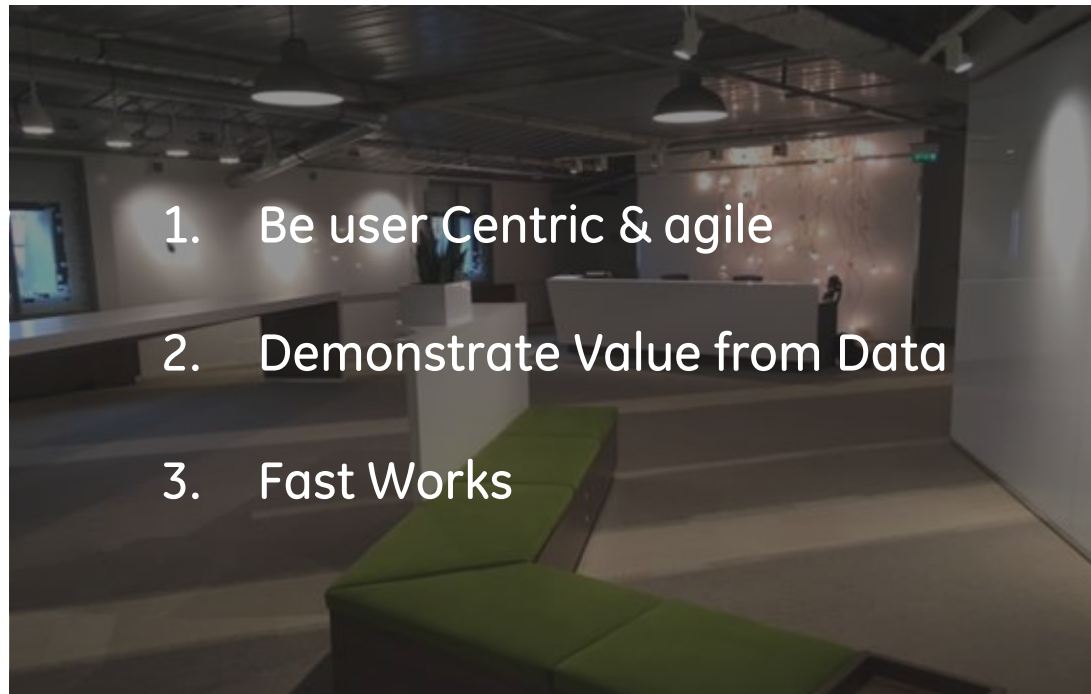

How GE built its Industrial Internet Strategy ?

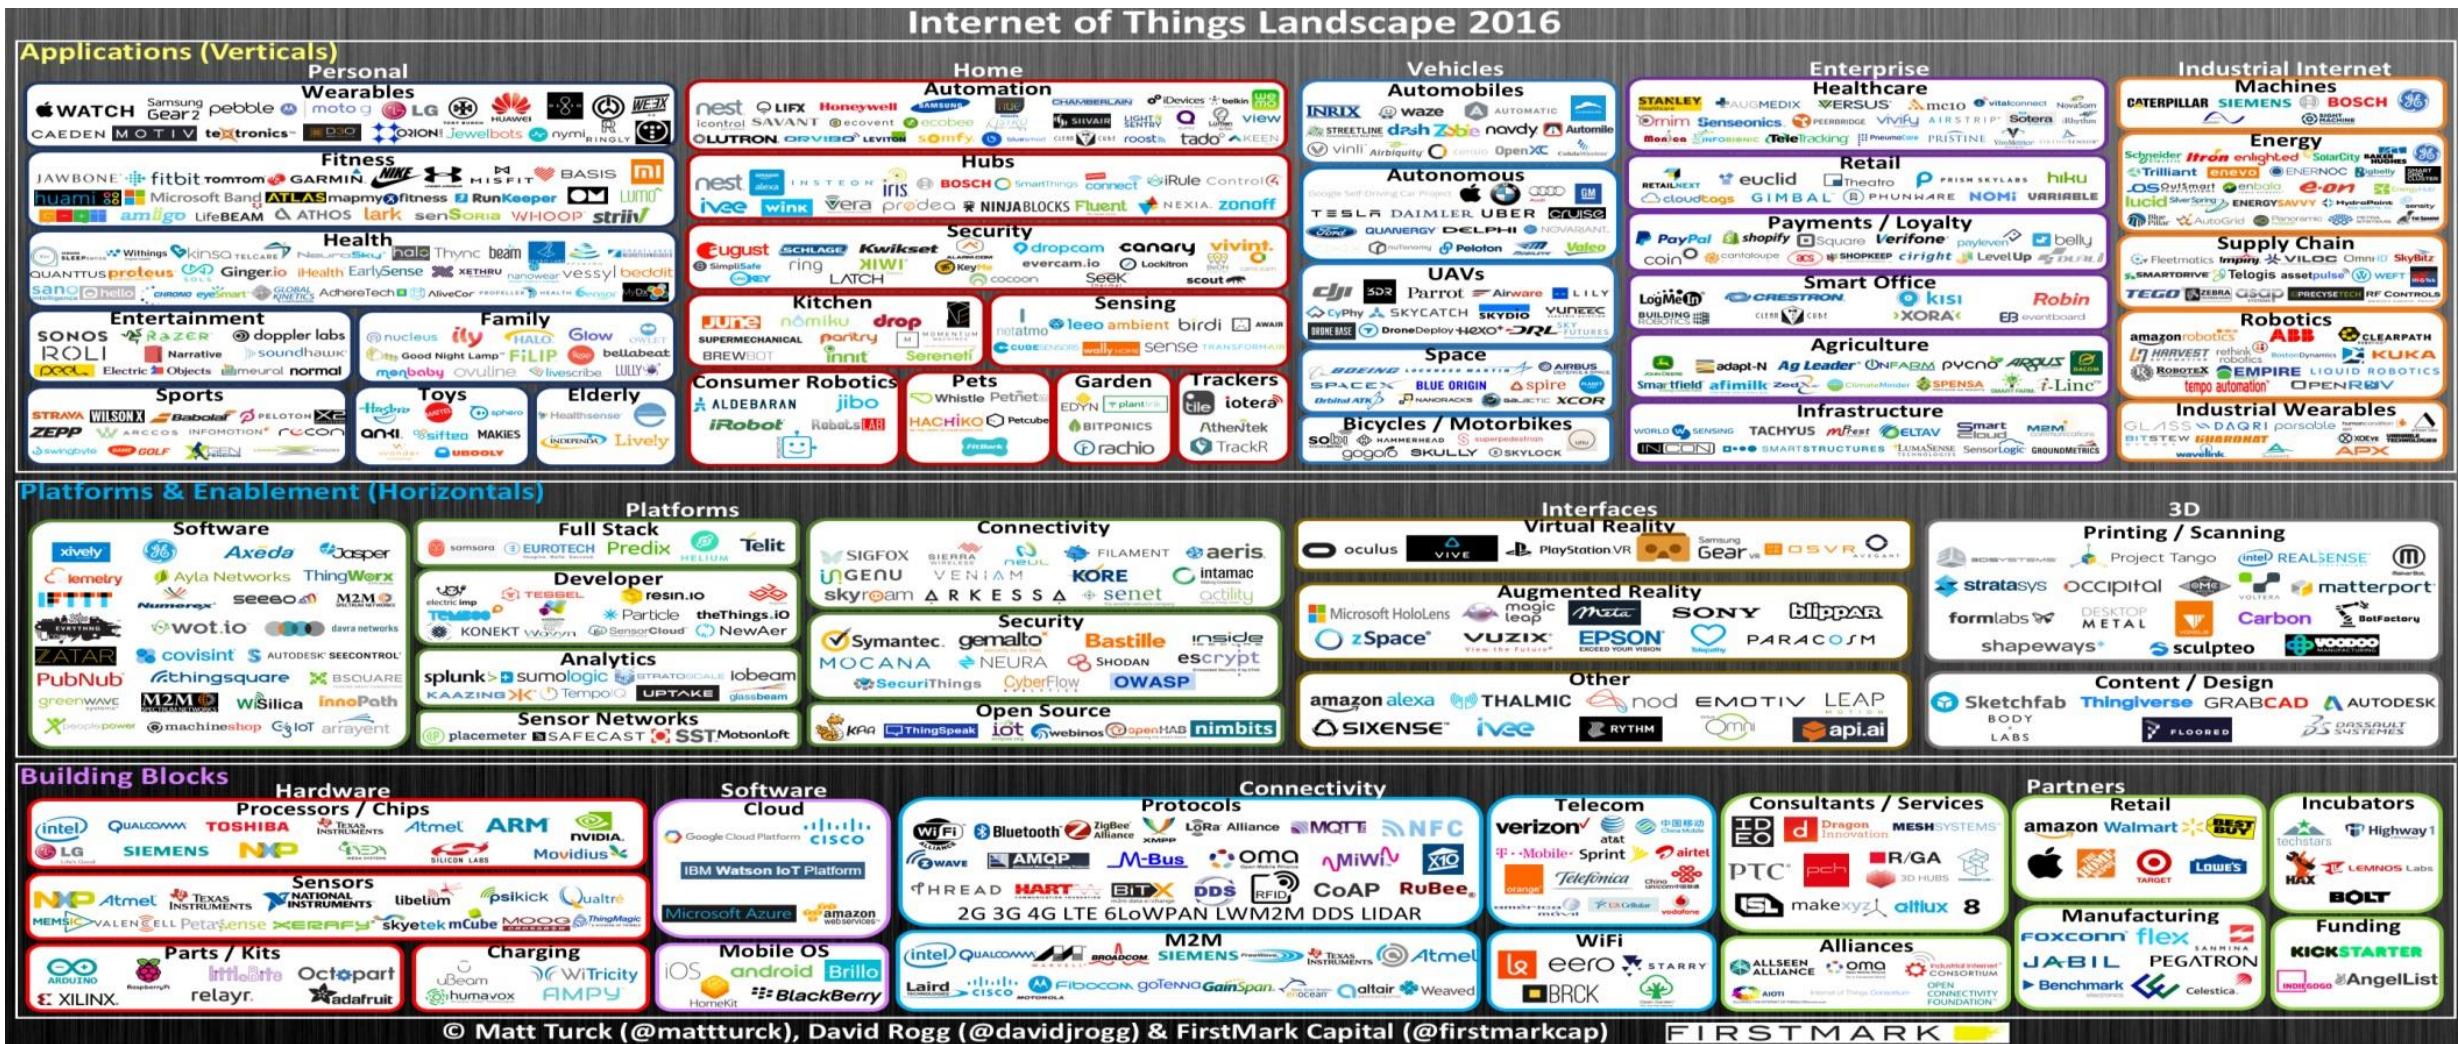

European Digital Foundry

*"European leader of the **Digital Industrial** transformation, the Foundry is the place of **innovation** and **co-creation** at the center of the **Industrial Internet** ecosystem, connecting together the best and most **passionate** talents in Europe."*

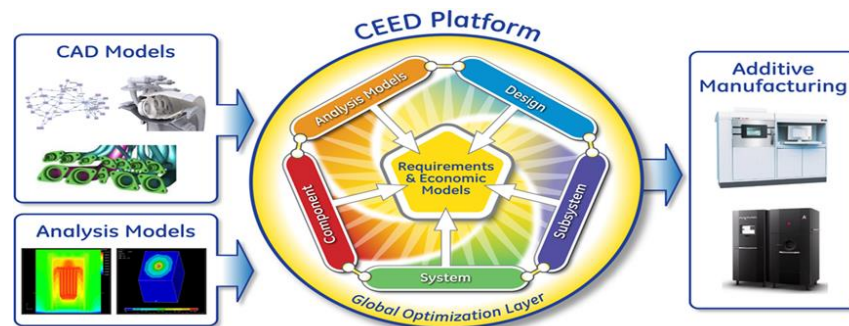

Need for a new way of working

Develop and Attract Talents

1. Industrial Internet Community Development <https://www.meetup.com/fr-FR/GE-Europe-Predix-Meetup/>
2. Internship and PhD Program
3. From Training to innovation Industrial Internet Hack, <http://industrial-internet-hack.devpost.com/>

<https://numa-ui.run.aws-usw02-pr.ice.predix.io>

<https://predix-ui-seed-ab02.run.aws-usw02-pr.ice.predix.io>

Leverage Innovation

1. Digital Industry Challenges <http://digital-industry.io/>
2. Start-ups and SME's developping Apps on Predix: Dojo program
3. Open Innovation Partnerships <https://www.ge.com/digital/partners/join-our-program>

Takeways

1. Being Close to customers and agile
2. Being able to solve Complex issues faced by our customers through Industrial DataScience Approach
3. Leveraging Innovation in the IIoT

imagination at work
