

Accelerated Job Search Programme

Get started

We invite interested alumni to apply for the **Accelerated Job Search Coaching Programme**, a series of 5 facilitated peer coaching sessions designed to help you land your next position.

This very successful programme accelerates your search by introducing key techniques and methods that have proven to help participants. It targets alumni who are unemployed or anticipating redundancy and are clear on their targets. We recommend that alumni who are not yet clear on their next career move engage with a coach in 1-1 conversations before embarking on this programme.

Participants targeting corporate roles in MNCs, SMEs etc. will benefit the most from this programme. The modules will prepare you for recruitment processes in organisations by addressing critical aspects of Personal Branding, CV writing, Interview preparation and Job search techniques. You will receive feedback and advice from peers on each topic and support each other as you go through your search. Groups of four participants will commit to a series of four 90-minute group coaching sessions and a final 60-minute session. Sessions are facilitated by a senior career coach and will take place weekly at the same time over 5 weeks.

To gain the maximum benefit both individually and for the whole group, participants must make themselves available to attend each session.

- Session 1 (90 min): Introduction - Your pitch
- Session 2 (90 min): Your CV
- Session 3 (90 min): Your job search strategy and networking activities
- Session 4 (90 min): Interview and salary negotiation
- Session 5 (60 min): Drive to results

An estimated time investment of 2 to 5 hours per week for participation, reading and preparation is expected.

Apply [here](#), by 2 October 2023

Best regards,

The Alumni Career Development Team
